OF AUTO PARTNER S.A.
2023***

**AUTO PARTNER S.A.

I. Introduction

This Report on Remuneration of Members of the Management Board and the Supervisory Board of Auto Partner S.A. ("Remuneration Report") has been prepared by the Company's Supervisory Board in accordance with Art. 90g of the Act on Public Offering, Conditions Governing the Introduction of Financial Instruments to Organised Trading, and Public Companies of 29 July 2005 (consolidated text: Dz.U. of 2019, item 623, as amended).

The Remuneration Policy for Members of the Management Board and the Supervisory Board of Auto Partner S.A. (the "Remuneration Policy") has been approved by Resolution No. 22 of the Annual General Meeting of 19 June 2020 with effect from 1 July 2020. The current version of the Remuneration Policy is available on the Company's website at <https://ir.autopartner.com/lad-korporacyjny/>

Pursuant to Section 14.1 of the Remuneration Policy, the Supervisory Board prepares an annual Remuneration Report to provide the General Meeting with a comprehensive overview of the remuneration received by each Member of the Management Board and the Supervisory Board in the previous financial year.

This Remuneration Report prepared in accordance with the Remuneration Policy covers the financial year 2023.

In 2023, the Auto Partner Group reported a 28.9% year-on-year increase in revenue, to PLN 3.7bn, the highest result in its history. The Group also earned a record net profit of PLN 223.6m, up 7.9% from 2022.

These results demonstrate effective management of the Group. In 2023, Auto Partner made strategic investments supporting its market expansion, which helped it reach new customer segments. Key projects included the extension of existing warehouse facilities, launch of a logistics and warehouse centre in Poznań, and establishment of new branches. Work is under way on the development of another logistics and warehouse centre in Zgorzelec. Currently, Auto Partner's warehousing space (including at the branches) is in excess of 160,000 sq. m.

In 2023, the Auto Partner Group markedly improved its sales performance, with international sales growing by 29.6%, to PLN 1,827.2m, and domestic sales increasing by 28.1%, to PLN 1,826.2m. In terms of geographical structure, after 2023 sales were evenly split between the Polish and international markets, each contributing 50% to the total revenue.

The Group maintained a low debt level, as evidenced by a net debt/EBITDA ratio of 1.2 at the close of 2023.

2023 was another year marked by economic challenges stemming from Russia's invasion of Ukraine. However, the Group's limited exposure to markets east of Poland and its effective management of the crisis situation, including process optimisations to mitigate potential disruptions, ensured that its efficiency and profitability remained unaffected.

The Supervisory Board believes that the remuneration practices currently in place at the Company, aligned with the Company's Remuneration Policy, effectively support the execution of the business strategy of the Company and the Auto Partner Group while at the same time furthering the Group's long-term interests. The fixed remuneration and additional benefits received by Management Board Members are set at a level ensuring their long-term engagement and stable collaboration with the Company. Variable remuneration components, including compensation under the Incentive Scheme linked to the Company's performance and certain key financial metrics, motivate the Management Board to meet strategic targets and objectives.

3. Explanation of how aggregate remuneration complies with the Remuneration Policy, including how it contributes to long-term performance objectives of the Company

All remuneration of Management Board and Supervisory Board Members is paid in compliance with the Company's Remuneration Policy effective since 1 July 2020.

Compliance with the Remuneration Policy is ensured by the following practices:

- the remuneration is paid only in such form as permitted under the Remuneration Policy;
- fixed remuneration of Management Board Members does not exceed 12 times the average remuneration of the Company's employees for the previous financial year;
- members of the governing bodies may receive additional benefits only if such benefits have been offered to the Company's employees and independent contractors in general, or to designated groups of such individuals.

The aggregate remuneration of Management Board Members contributes to the Company's long-term performance objectives in the following manner:

- The remuneration structure, comprising both fixed and variable components, with the variable component significantly tied to the Company's financial performance, serves as a strong incentive for the Management Board, encouraging them to implement strategies that result in a steady improvement of the Company's economic results, leading to sustainable growth in the shareholder value, further expansion of the Company's operational scale, growth in its market share and reinforcement of its market position, while ensuring long-term operational stability.
- The amount of bonuses under the Incentive Scheme depends on the growth in enterprise value.
- Bonuses under the Incentive Scheme for a given year are divided into parts payable over a three-year period and their payment is conditional on continued service as a Member of the Company's Management Board, which helps stabilise the composition of the Management Board.
- In addition, the variable component, which consists of bonuses tied to the achievement of short-, medium-, and long-term objectives aligned with the Company's strategy, is contingent upon current achievements and their assessment by the Supervisory Board, which ensures that the Management Board remain committed to advancing the Company's business, continuously improving its market position, and enhancing its financial performance.

Supervisory Board Members receive remuneration consisting of fixed components and additional benefits. This compensation structure is independent of the Company's financial performance and economic condition, ensuring that the Supervisory Board operates effectively in any market environment

4. Explanation of how the performance criteria were applied

The variable component of the remuneration of Management Board Members depends on the Company's economic condition and on the achievement of certain financial metric targets.

In 2023, the Company operated the Incentive Scheme for 2022–2024 covering the following Management Board Members: Andrzej Manowski, Piotr Janta and Tomasz Werbiński. It was adopted by the Company's Supervisory Board on 10 September 2021 and then amended under the Supervisory Board Resolution No. 5 of 30 November 2022. The Incentive Scheme is based on bonuses that depend on the achievement in a given year of targets set for certain financial metrics specified in the Rules of the Incentive Scheme. The pool of resources allocated by the Company for the implementation of the Scheme for a given financial year (reference period) is equal to 2% of the enterprise value increment, less enterprise value increments from previous reference periods, calculated in accordance with the following formula:

$$PP = 2\% (PEV - \Sigma PEV)$$

$$PEV = (WdAEV - BEV)$$

$$WdAEV = EV + GN$$

$$EV = 9 * EBITDA$$

where:

PP is the bonus pool for a reference period;

PEV is the enterprise value increment in the reference period;

ΣPEV is the sum of the enterprise value increments from previous reference periods;

WdAEV is the shareholder value at the end of the reference period;

BEV is the base enterprise value;

EV is the enterprise value at the end of the reference period;

GN is net cash at the end of the reference period.

The total amount of bonuses to be paid in accordance with the Rules of the Incentive Scheme over the term of the Scheme is subject to a limit of PLN 8,000,000.

The Incentive Scheme is implemented through the payment of bonuses on the following terms:

Andrzej Manowski is entitled to receive 45% of the bonus pool for a given reference period;

Piotr Janta is entitled to receive 45% of the bonus pool for a given reference period;

Tomasz Werbiński is entitled to receive 5% of the bonus pool for a given reference period.

The bonus for a given financial year is awarded to the Management Board Members based on the Supervisory Board resolution within two weeks from the approval of the Company's consolidated financial statements for the financial year. It is contingent on the Management Board Member's continued service at the Company on the date the bonus is granted, and is paid in accordance with the following terms:

- 70% of the awarded bonus amount is payable within one month from the approval of the Company's consolidated financial statements for a given financial year, provided that the Management Board Member still works for the Company on the bonus payment date;
- 20% of the awarded bonus amount is payable within one month from the approval of the Company's consolidated financial statements for the first financial year ended after the financial year for which the bonus was awarded, provided that the Management Board Member still works for the Company on the bonus payment date;
- 10% of the awarded bonus amount is payable within one month from the approval of the Company's consolidated financial statements for the second financial year ended

after the financial year for which the bonus was awarded, provided that the Management Board Member still works for the Company.

Linking the variable remuneration to the Company's financial results ensures that the Management Board Members share in the profits generated by the Company, which is a strong incentive to make an effort to maximise growth in enterprise value and to continue service for the Company.

To demonstrate how the application of performance-based criteria affects the amount of variable remuneration for Management Board Members, as well as the situation where the entire bonus pool of the Incentive Scheme for 2022–2024 was used in the first year of the Scheme, meaning that no bonuses could be earned under the Scheme in subsequent years (including 2023), the following table presents, for illustrative purposes, simulations showing possible bonus amounts under the Incentive Scheme for 2022 for different levels of the Group's results:
